The Lightest Steering Quickener at the Track!

Keyser's Port City Racing's new 2:1 steering quickener delivers a faster response at the track. This compact CNC aluminum quickener is black anodized for corrosion resistance, has a two bolt mounting method, and only weighs 1.65 pounds, making it the lightest steering quickener at the track.

#100-187

Keyser's Port City Racing is a "total solutions provider" of racing products and components, offering the latest technology and design from their "in-house" precision manufacturing facility. Since they do everything from engineering and design to actually manufacturing their own line of racing products, they can control the quality and offer you a superior custom product.
